Supplemental Report

SPD Case#: 22-0000538

Sgt. N. Berg

On 10/15/22 I was working uniformed patrol out of the SCSO main office. I heard this call for service over the radio and began responding out to the area once I heard deputies were trying to apprehend a subject who had brandished a firearm at a person. I was aware it was believed the suspect was Nathan Smart, which I recalled from an earlier call for service in the Sonoma Valley area.

As I was responding to the area, I heard a deputy indicate they had just been in an officer involved shooting. When I arrived on scene, the suspect (later identified as Nathan Smart) was being transported by medics for gunshot wounds.

I assisted with scene management and coordinated resources as necessary. While on scene, I learned there were multiple witnesses to this incident to include a nearby vehicle that contained several witnesses. They had been parked near the officer involved shooting scene and I was told they witnessed aspects of the incident. I was informed deputies contacted the occupants of the vehicle and obtained identifying information. The witnesses in the vehicle were cooperative, but after awhile asked if they could leave as they had been there for awhile. I took several photographs of the vehicle in relation to the shooting scene. I later uploaded these to evidence.com.

I confirmed with Lt Piccinini that the witnesses in the vehicle were clear to leave, and Santa Rosa Police investigators would follow up with them at a later time.

End of supplement.
